Professional Summary

Software QA Analyst with 10+ years of experience in manual and automated testing. Strong background in Selenium, Postman, RestAssured, BDD, and Agile methodologies. Expert in testing APIs, UIs, and microservices with an eye for quality, performance, and usability.

Core Skills

- Languages: Java, C#, Ruby, ShellScript
- Testing: Selenium, Cucumber, RestAssured, LeanFT
- API Tools: Postman, Newman, Swagger, Kafka
- Versioning & CI: Git, Azure DevOps, Jenkins
- Databases: SQL Server, MongoDB, MySQL
- Cloud/DevOps: AWS, Oracle Cloud, Docker, Kubernetes

Professional Experience

Senior QA Analyst - BenFatto (Oct 2021 - Present)

- Led E2E test automation using Selenium and C# for COMEX systems
- Executed SQL-based data validations and built regression test suites
- Participated in Agile sprints and demo presentations
- Managed CI/CD pipelines in Azure DevOps

QA Analyst - Dextra Digital (Mar 2020 - Oct 2021)

- Automated API/microservice tests using Kafka and messaging technologies

Senior QA Analyst - CI&T (Jun 2018 - Mar 2020)

- Designed and implemented BDD tests using Java and Cucumber
- Performed monitoring with Kubernetes and backend testing with SoapUI/Postman

QA Tester - E-commerce Project (Jul 2013 - Jun 2018)

- Automated UI and API tests using Java, Selenium, and Cucumber
- Maintained legacy test suites and performed bug triage using Jira

Education

- Postgraduate in Software Engineering - Anhanguera (Expected 2024)
- Specialization in ICT - Anhanguera (Expected 2024)
- Bachelor's in Computer Science - Anhanguera (2020)

Languages & Certifications

Languages: English (Intermediate), Spanish (Basic), Brazilian Sign Language (Fluent)

Certifications: WebApps Test Automation (Ninja Level), SQL Proficiency, Java Basics, Postman & Newman APIs
