Luis Henrique C. Leite

Campinas, SP | +55 (19) 99943-4227 | luishchagas@gmail.com | LinkedIn: linkedin.com/in/luishchagas

Professional Summary

QA Analyst with 10+ years of experience in manual and automated testing. Skilled in Selenium, Postman, RestAssured, BDD, and Agile. Focused on API, UI, and microservices testing with attention to quality and performance.

Core Skills

- Languages: Java, C#, Ruby, ShellScript
- Testing Tools: Selenium, Cucumber, RestAssured, LeanFT
- API & Messaging: Postman, Newman, Swagger, Kafka
- Versioning & CI: Git, Azure DevOps, Jenkins
- Databases: SQL Server, MongoDB, MySQL
- Cloud/DevOps: AWS, Oracle Cloud, Docker, Kubernetes

Languages & Certifications

- Languages: English (Intermediate), Spanish (Basic), Brazilian Sign Language (Fluent)
- Certifications: WebApps Test Automation (Ninja Level), SQL Proficiency, Java Fundamentals, Postman & Newman APIs

Tech Stack

Java | Selenium | Cucumber | SQL | Kafka | Jenkins | Azure DevOps | AWS | Docker

Professional Experience

- Senior QA Analyst - BenFatto (Oct 2021 - May 2025)
- Led E2E test automation using Selenium and C# for COMEX systems.
- Executed SQL validations and built regression test suites.
- Participated in Agile sprints and demo sessions.
- Managed CI/CD pipelines with Azure DevOps.
- QA Analyst - Dextra Digital (Mar 2020 - Oct 2021)
- Automated API and microservice testing using Kafka and messaging tools.
- Senior QA Analyst - CI&T (Jun 2018 - Mar 2020)
- Created BDD tests with Java and Cucumber.
- Performed backend testing and monitoring via Kubernetes, SoapUI, and Postman.
- QA Tester - E-commerce Project (Jul 2013 - Jun 2018)
- Developed UI and API test automation using Java, Selenium, and Cucumber.
- Maintained legacy test suites and performed bug triage using Jira.

Education

- Postgraduate in Software Engineering - Anhanguera (Expected 2024)
- Specialization in ICT - Anhanguera (Expected 2024)
- Bachelors in Computer Science - Anhanguera (2020)

Key Projects

- Test automation pipeline for microservices using Kafka and Azure DevOps
- Performance testing initiative that reduced API latency by 32%

Leadership & Strategy

- Mentoria de novos QAs e definicao de processos de automacao
- Construcao da cultura de qualidade em squads ageis
